Itumbiara - GO

SKILLS ABAP

- SmartForms
- ALV (ABAP List Viewer)
- User Screens
- RFCs (Remote Function Calls)
- BAPIs (Business Application Programming Interfaces)
- User Exits and Enhancement Points

SKILLS FIORI

- Fiori Elements
- Fiori Freestyle
- List Reports
- Worklists
- Data modeling using CDS Views (Core Data Services)
- Data integration using SAP Gateway
- Development of OData services to expose SAP functionalities to other applications

PROFESSIONAL PROFILE

I am a passionate developer with a strong interest in technology and innovation, focused on enhancing my skills in system development at SENAI and as an SAP ABAP Developer. I have solid experience in implementing and optimizing solutions using SmartForms, ALV, User Screens, RFCs, and BAPIs within the SAP environment. I am dedicated to exploring new functionalities and integrating best practices to ensure efficiency and quality in systems. Additionally, I am interested in AMS for continuous support and in Fiori to create modern and intuitive interfaces on the SAP platform.

EXPERIENCE

Agirre

SAP ABAP Developer • July 2023 – Present

- *Development and consulting in SAP ABAP, including SmartForms, ALV, User Screens, RFCs, BAPIs, User Exits, and Enhancement Points.*
- *Utilization of Fiori with BTP (Business Technology Platform), covering Fiori Elements and Fiori Freestyle.*
- *Implementation of List Reports and Worklists to enhance the user experience.*
- *Advanced data modeling with CDS Views (Core Data Services) to provide optimized and reusable data structures.*
- *Efficient data integration using SAP Gateway.*
- *Development of OData services to expose SAP functionalities, enabling integration with other applications in an agile and secure manner.*
